About the Course:

Whether you are adding hypnotism to an existing practice, pursuing a new career as a certified consulting hypnotist, or are on a more personal journey to help yourself, friends or family, the NGH curriculum offered here at New Horizons in Hypnosis is designed to provide a complete classical approach to hypnotism. The course of study is designed especially for those who want a career in the growing field of hypnotism and want to work with people in a private professional practice of their own. It is also suitable for mental health professionals, including therapists, counselors, social workers, nurses and teachers who want to add to and enhance their skills. Upon completion of the course, each student will have received all the training necessary to become a practicing hypnotist specializing in weight control, smoking cessation, and stress management for individuals and groups; and will be eligible for certification by the National Guild of Hypnotists.

Only a limited number of students are accepted into each class so that they may experience the personal attention and hands-on training that the National Guild of Hypnotists Certified Instructors are so well noted for. Successful graduates of these classes are eligible to be designated as Certified Hypnotists by the National Guild of Hypnotists, the oldest and largest organization of its kind with over 10,000 members around the world.

This intensive training was developed and certified by the National Guild of Hypnotists. All classes are independently conducted by a Certified Instructor using the NGH developed core curriculum and teaching materials. Each independent Certified Instructor has completed specialized training and is held to specific performance standards in presenting this material to students. All approved printed materials have been developed by the National Guild of Hypnotists' Educational Division and are for use only by authorized instructors.
